Wedding Date: Saturday 11/19/16

Over the past 3 years Matt and I have been to at least 10 different wedding receptions but they all seemed like the SAME ONE. The DJs all played the same old songs, cracked the same corny jokes, and forced guests into the same tired conga lines. We knew that since we wanted a reception different from all the previous ones, finding the right DJ who reflected our tastes and styles was crucial. Fred clearly explained that his job was to present OUR vision of the perfect reception and not his. He listened carefully and gave us some great tips to personalize our ballroom and advice with timing and table layout / seating chart. The lapel microphones that he provided worked perfectly and didn't ruin the pictures like a mike on a stand would have. Fred programmed all of our requests in a playlist for cocktail hour. His opening salutation in Spanish and English was a real plus and made Matt's grandparents feel especially welcome. Some of the Spanish names would have given an ordinary DJ some trouble but DJ Fred handled the pronunciations with ease. Dinner music was an excellent mix of our list and his songs that fit the mood perfectly. Once the dancing started, the room caught fire and Fred played infectious dance sets without yelling things on the mike or trying to hog the spotlight. We could NEVER have had such an amazing reception with anyone else. DJ Fred was distinguished and classy and still rocked the house! Thanks, Fred!!!

We couldn't have asked for a more perfect wedding reception. So much of a reception's success is due to the entertainment so we knew our choice was very important. DJ Fred was given complete control over the music (the only instruction: nothing 'corny') and he delivered BIG TIME. Family members that I have never before seen on a dance floor were sweating by the end of the night because of his awesome mix. He never hogged the spotlight, tried to force people to dance, or made the party about him. He made the reception fun, unique, and classy and we give him FOUR thumbs up! Thanks, DJ FRED!!!

Fred was so reliable and responsive! He always answered his phone and replied to emails right away. He accommodated our every request. I gave him a small playlist and described what we wanted, and he took it from there. With all the details we had to plan, it was so great to have Fred handle that portion of things and work his music magic! Everyone loved the music!

Fred Hart is an excellent DJ! I am a music geek so it was tough to "hand over the reins". To anyone. I think Fred got that early on and respected our game plan. He understood exactly what we were looking for and executed it beautifully. Still getting feedback about "how good our DJ was" and "how it was great to see so many people dancing". Even folks we never expected :-)
Big kudos and thanks Fred!

We could not be more pleased that we booked Fred Hart Entertainment for our recent wedding on 10/15/16. Fred was the consummate professional right from the start. He contacted us immediately after we inquired about his services and spent about an hour with us on the phone asking numerous questions to ensure he knew what our vision was for our wedding day. He provided us with all of the resources and guidance we needed in order to perfect our plan- he even sent us a very organized master list of his music catalog and asked us to highlight the various songs or genres that we wanted to hear so that he could make sure this was our vision and not just him compiling a playlist for the night. We told Fred that we wanted people on the dance floor all night long and he did not disappoint!! The playlist flowed well, he kept the beat going & interjected a few slow/romantic songs just at the right moment. Our guests are still raving about how wonderful our DJ was and how much fun they had at our wedding because of the vibe and atmosphere that he was able to provide for us. I would highly recommend utilizing Fred Hart Entertainment for your wedding (or any other event). He's the BEST!

My fiance and I made numerous calls in our search for a DJ to power our classy indoor/outdoor quaint rustic wedding. Most of the DJ's we called seemed to prefer spin top-40 hits at our wedding in an attempt to subtly force their idea of a good wedding, or their idea of what worked for them in the past. All wanted to show up with sub-woofers, a bushel of lasers and fire/fog breathing dragons. In our case the event was held in a three hundred year old historical landmark, the crowd was a bit older and a bit more sophisticated and we had very specific ideas about what we wanted to hear.

We had an hour long chat with Fred about our vision for the event. We shared with Fred our playlist and preference for ambient lounge type tunes for cocktail hour (such as Kygo, Lana Del Ray), then a more classy vibe for dinner (Etta James, Sam Cooke, Sinatra) and then more dance friendly crowd favorites for after dinner. We also tapped Fred's extensive experience with these events to put together the timeline of the evening, speaking with him multiple times before the event. We also asked him to make all announcements and serve as master of ceremony of sorts. A nice touch was Fred meeting me outside of the venue to introduce himself and ask about the proper pronunciation of important tongue twister last names, as well as the proper pronunciation of various foreign songs chosen for the parent dances (and actually delivering on their pronunciation).

Finally a DJ that listened and played exactly what we wanted to preserve the vibe we had in mind, but also had the experience to read the crowd and get people dancing later in the evening.

notes:

- very comfortable performing master of ceremony duties in addition to spinning music
- listened
- professional and reserved if you need him to be but knows how to get the crowd going

Hiring Fred for our wedding was one of the best decisions we could have made. He was PERFECT. In every aspect he surpassed our expectations and helped make our wedding as perfect as it could be. Without him our wedding definitely wouldn't have been the same. In the beginning we had a miscommunication on the location of the venue. He believed that it was a venue in jersey, however it was in Kentucky. We thought we just lost the opportunity to have him DJ our wedding, but to our surprise he said it wouldn't be a problem. He ended up buying a plane ticket and found a DJ out of Owensboro that he could hire to use the equipment. Once we made the decision to hire him it was extremely easy to contact him and ask some questions. He was always so quick to respond and always a huge help. When it came closer to the wedding and it was time to choose our music we really had no idea what songs to choose, there were so many choices. He was very helpful by sending top charts of all the different categories we would need. And in the end we just chose the main songs (first dances, ceremonial precessional and recessional, and the cake cutting song) and he chose everything else for us. So, leading up to the wedding he was overall fantastic!

Now onto the wedding. He got there in enough time to attend the rehearsal dinner which I thought was great as well. That way he got a feel for the place and could see if the place we chose for him to set up was good enough. It was wonderful getting to meet him and talk with him in person before the wedding. And he was so nice in person as well and just really great. The timing of all the songs were great and he really helped keep us on the timeline we made. The love story couldn't have been more perfect he had the attention of everybody and it added so much to it. Also, Fred split our payments into 4 so that really helped us out! He was incredible, I can't recommend him enough to anybody that wants a great wedding experience. You won't regret it!

Fred was recommended by my facility, wedding planner, AND photographer so hiring him was a no brainer. He was always available to consult with me on wedding related issues: arranging tables in the ballroom, creating an efficient timeline, selecting all of the songs for the special dances / events, and even helping us narrow down the long list of hors d'oeuvres. We also chose the LOVE STORY which told the details of our first meeting, first date, and proposal. It was so fun to hear him share everything and to see the responses of our friends and family. It was funny, emotional, and very unique. He took every song from my playlist and fit them in at just the right time to keep everyone dancing and having a great time. He was awesome! You can't go wrong with DJ Fred!!

Fred was perfect. We had very particular songs we wanted played and he accommodated us by meticulously sifting through our playlists. Every song played on cue and he knew how to get people on the floor to dance. He was well dressed and well spoken and really set our minds at ease through the entire planning process. This is the DJ you want.

My wedding day was far beyond my highest expectations. DJ Fred was a total pro. From staying on constant contact leading up to the wedding through my NUMEROUS emails, texts, and calls, he was always willing to guide and advise with any question I had in planning. We were completely comfortable with his expert assistance which made us very confident that he was the right choice. I was an extreme control freak over the music playlist and he gave me the assurance that he'd follow my instructions to the letter. All of my songs were played with other great dance tunes that he mixed in which kept the energy going all night and keeping my guests on the dance floor until the last dance of the evening. Fred's great music knowledge, skill at reading the crowd, elegant presence, polished microphone style, and soothing / commanding voice were the perfect complement to the elegant wedding I wanted. THANKS FRED!

Professional and FUN. From our first meeting right up through our wedding night we could not have been happier with our choice of Fred as the DJ for our wedding. He was extremely responsive throughout the process, completely open to all of our requests and helpful with suggestions throughout our planning. We could tell right from the start that we could give him the basic outline of what we were looking for for our wedding and he had the experience to make that happen, but what we ended up with was even better than we could have imagined. Throughout the whole process he knew exactly when to share his professional judgement and when to be flexible with our requests, which made for a truly classy, but still personal

experience. He did a great job keeping everything flowing nicely and was extremely flexible with our on the fly timing changes during the reception, he even had some perfect on the spot suggestions that greatly improved the garter/bouquet toss. On top of all that, his playlist fit our crowd perfectly - the dance floor was packed from song 1 right through the end of the night. We could not recommend Fred more highly.

Fred did an amazing job at my wedding last month. His professionalism, timeliness and attention to detail were second to none. He made the music/lighting portion of the planning process a breeze and was always available if I had any follow up questions. Additionally, when I mentioned that I wanted to have a confetti shower during the last song, he was 100% on it and made sure it would happen. He did an excellent job of making our reception flow seamlessly and had everyone up on their feet dancing- I have gotten a number of compliments on this from my guests. I highly recommend using Fred if you are looking for great service and someone who will create a great time for your guests!

Fred did an amazing job at our wedding just over a week ago at Holly Hedge Estate! Everybody was on the dance floor the entire night! Additionally, our videographer could not make the event last minute (right before the ceremony started), so I was upset that we would not have video footage. Fred put me at ease at the start of the reception when he told me his assistant would take footage and put it together for us since the videographer was not going to make it! Just days later, the thumb drive was in my mailbox. He went above and beyond! Cannot thank Fred enough and would definitely recommend him!

Fred kept the dance floor packed all night and always kept the spotlight on me and Jeff. His distinctive presence was the perfect complement to the elegant atmosphere that I wanted at my reception. He is obviously dedicated to his craft and has mastered every aspect of a wedding reception completely. What I most appreciated was his voice and style on the microphone - it was clear, precise, and natural. He never tried to force a phony hyped up persona, just cool, calm, and very professional. I highly recommend him if you want a fun but still classy DJ.

DJ Fred hosted at another friend's wedding, and we loved his work so much we knew that he was the first person we wanted to interview to be our DJ! Well, he ended up being the only person we interviewed, his presentation was so impressive. He is the heart of professionalism--well dressed, well prepared, and always responsive. He even offered help with planning other aspects of our

wedding should we need it. Having worked with other vendors who were less easy to reach, I very much appreciated this. Not only that, his work on the day of was perfect. We just stood back and let him choose all the music and I am still getting compliments on how good it was. Everyone also loved the unique "love story" he presented at the beginning of the reception, essentially the story of how we met and got engaged. Overall we couldn't be happier!

DJ Fred MADE our wedding reception. We knew from our first meeting that DJ Fred had the feeling of elegance and sophistication, while still being fun - that was exactly what we were looking for. We opted for the Love Story, which had guests laughing, crying, and cheering. Our dance floor was filled the entire night, and you could feel the energy in the room. Fred was in contact with us throughout our year long planning process, checking in to let us know we were on his radar and he was always there to assist. The next morning all of our guests had nothing but amazing things to say about Fred and how wonderful he was. He is truly a class act. Even our wedding planner wrote me an email to comment on how wonderful he was and how much she enjoyed the Love Story and that it was a wonderful, personal touch. If you are looking for a personal, elegant feeling, while still having a full dance floor - DJ Fred is your man.

I couldn't imagine my wedding day without DJ Fred. He absolutely saved the day! First, the musicians that I hired for the ceremony didn't show up and without my even asking him, Fred had a speaker playing the same classical selections that the trio was supposed to play. The reverend came and thought that the hotel was setting up a microphone and speaker (so he didn't bring his own) and again Fred stepped in without pause to provide the equipment. The ceremony was flawless and only started 5 minutes late. Fred wound up giving directions to the trio when they called (I gave him my phone) so at least they made the cocktail hour. His relaxed demeanor helped me de-stress and his calming presence helped me to focus on the

joy of the moment and all that was positive and kept me from crying in frustration. He talked me off the ledge AND THEN SOME!

After the bringing the ceremony back from the brink, he continued to shine. The large bridal party (14 couples) was very easily lined up by his leadership and instructed with his impressive voice. We were introduced, he shared our 'love story' with everyone (a HUGE hit), and all of the special moments were carefully scripted to allow for smooth transitions and we still had more than 2 hours to cut loose and party. His dance sets were infectious, his mixing talent impressive, and his skill at reading the crowd was spot on. He never once showboated, yelled silly things on the microphone, or stole the spotlight.

Our whole reception was about US and having Fred there made it so much more special. He's a first class act worth his fee (and his weight in gold).

Fred did an excellent job as the Master of Ceremony/DJ at our wedding. He stuck to the music we wanted, and moved at the pace we wanted. The biggest thing for me though was his ability and willingness to role with anything that came up. At the last minute we found out that the microphone from the venue wasn't working. Before I even had a chance to get upset Fred said it was no problem and had his own mic set up. His skills and knowledge make him a great choice for just about any event, and his experience gives him an understanding of more than just the music. He's a friendly and helpful person and I'm glad we chose him to be our DJ.

DJ Fred was more than our master of entertaining for our wedding, he was there with advice and guidance throughout the entire planning process. Fred made a special dance with my dad possible by mixing a list of songs I sent him and making smooth transitions between each, the dance was a hit and wouldn't have been possible without Fred's work. The day after the wedding Fred sent amazing pics and videos of our wedding which are so special to us. Many of our guests

asked where we found our DJ and the dance floor was full all night! We had the best wedding with the help of DJ Fred.

From the first moment we began working with Fred, he made it clear that he worked for us (more specifically the bride).

I contacted Fred after coming across his many positive reviews on Wedding Wire and I am very glad I did. He called me back quickly while he was in the car traveling to a wedding he was going to DJ and we talked for a bit about music, my wife and I, and his background. We set up an appointment so that the three of us can sit down and get to know each other better.

Fred came to our apartment in West Philadelphia and we talked for over an hour. It was very clear that he is a professional and his years of experience show. He got a feel for what type of music we like, the age ranges and types of guests who will be in attendance, the venue, and our expectations. We did not feel pressured to make a decision by him at all and in fact he told us to speak to other DJ's. We did just that and the other DJ's we spoke with did not provide us with the same level of comfort and confidence that Fred did.

After we booked with Fred he provided us with his list of his most requested songs broken down by tempo and event (bouquet toss/cake cutting etc). We gave him some songs that were meaningful to us and we gave him some songs that we did not want played. He respected our choices and used our song list to create a wonderful mix of music for our reception. Our guests ranged from young North-easterners to a southern grandmother and universally the music choices were met with rave reviews by our guests.

My wife's brother played the music for our ceremony. Fred helped provide him a microphone and speaker and was at the venue well before his scheduled start time. Fred made his prices very clear and we knew exactly how much we were paying and which specific services we were getting. He is very communicative and any questions and concerns we had he helped address in a very timely manner. I would not hesitate to recommend Fred to anyone looking for a DJ for their wedding.

Fred is extremely professional, responsive and clearly enjoys being a wedding DJ. His passion for his job comes through in how he interacts with his clients. I never had any concerns that Fred would not be the utmost professional and deliver excellent service. Fred came recommended to me from a friend (who is also an amateur wedding planner) and had seen Fred do an excellent job at a few weddings. One of my friends used him for her wedding too (on my recommendation). From start to finish Fred was responsive and cooperative in making sure everything went as planned. He made a point of meeting with me in person - even came to our house - when we first were looking to hire him. He also had a lengthy conversation with me about 2 months before the wedding when I was trying to figure out the timing for our wedding. He really is the "expert" wedding DJ and someone you can feel confident will deliver a quality service & knows what he's doing as a wedding DJ.

DJ Fred surpassed all of our expectations! He was very professional throughout the entire process. When we initially contacted Fred, he got back to us right away. We were living in Guatemala and planning for a wedding in Philadelphia. He gave us all sorts of options for getting in touch with him whenever we had questions. He even Skyped with us when we were in Guatemala! We hired Fred for his DJ services and for his lighting package. We could not have picked a better DJ. He played the perfect type of songs for everything from the cocktail hour, during dinner time, and the dancing! He had people on the dance floor from the moment dinner was finished until the very end of the night. He even had the people in line for the photo booth dancing! He played the perfect combination of music for the guests at my wedding. He took care of everything throughout the entire night. He even checked in with us a couple of times throughout the night very briefly to make sure we had everything that we needed. As for the lighting package, I was a little hesitant at first because I was not sure if we wanted a lighting package, but I am glad that we went with it. I was not sure what I was getting myself into, but I am so happy that we got the lighting package. The lights completely transformed the room into a more elegant space, and I would highly recommend the lighting package! My husband is really into premium sound systems. Fred had a sound system that was absolutely superb for the dance floor area. It was very pleasant and perfectly balanced as if it were a recording studio that had capabilities of higher volumes without any distortions. My husband claims to have seen many systems and at first glance he was concerned at the small and sleek size of the system Fred had set up. But, with great technology comes a new wave of electronic systems. that has the quality of another level with half the size.

DJ Fred truly is the epitome of sophistication and class. He is extremely professional, more so than anyone I have come across in any profession. Fred is very thorough and has thought out every aspect of the DJ experience from the optimal placement of the speakers in the room to the perfection of smooth transitions between songs.

Before we hired Fred, we already knew that he was the person to choose. We were at a friend's wedding and did not stop dancing the entire time. On our first meeting, Fred came to our home, explained his philosophy and took the time to determine our vision for our wedding. The most important aspects of the wedding in my mind were music, photography and food. I placed a great deal of importance in finding the right DJ.

All of our guests raved about the wedding. The music kept the dance floor full the entire night. No one could believe that it was time to go when the last song came on. We were all having such a fabulous time, we didn't realize how long we had been out there.

DJ Fred does not use or need any gimmicks- no shouting to the crowd, no inflatable guitars, etc. The music speaks for itself and keeps everyone moving. Guests of all ages had an enjoyable time as there was music that appealed to everyone.

Fred is prompt and professional in all interactions via phone or email. He will make sure that wedding turns out exactly as you hope. He will ensure that the pronunciation of all your wedding party's names is accurate, go through the flow of the ceremony and reception with you, plan the must have and don't play lists and cover every last detail.

You won't be disappointed in choosing Fred. He is amazing! Thanks again for a wonderful time.

DJ Fred was perfect for us, though I really get the feeling he'd be perfect for anyone. He really takes the time to know his clients - not only through the "Love Story," but also our taste in music. We wanted great entertainment with none of the cheese, and we got that! He was also very accommodating. Not only did he make sure to play a list of songs we specifically asked for, but we also had asked our guests to list their song requests on their RSVPs. We asked Fred to

incorporate some of those songs when he felt the time was right. This led to lots of people dancing and a happy bride and groom! We had friends who told us they went to 7 weddings last year, and we had the best music by far! As a bride, who doesn't love to hear that!? I wish I could take all the credit, but most of it goes to Mr. Hart!

I first contacted Fred to help us with our weeding and imagine my surprise when he showed up in a pair of wingtips and a bunch of sound equipment. "How is this going to help with the crabgrass?" I thought. It was then I realized Fred was a wedding DJ, not a weeding DJ. Seeing as how he made the trip, survived the Schuylkill (and it was raining out anyway) we decided to blow off the milkweed put him to good use and get married.

The only complaint was from my mother who thought the music was too loud. Of course, Mom is 87. Crickets are too loud for her. Oh, and stay off of her lawn too.

Overall, it was a good time and Fred did an excellent job. He was punctual, professional and reasonably priced. If you're planning an event, you won't be sorry if you hire him. But if you're planning on some gardening, well.....
