

{ THANK YOU }

Dear DJ Todd,

April 21, 2008

Thank you so much for your excellent performance at our wedding yesterday! We both thought you did a wonderful job acting as our emcee (you really helped us keep things moving) and our DJ. We really liked that you played most (if not all) of our favorites but also sprinkled in other songs that seemed appropriate based on the crowd's mood. You definitely helped start the party and helped keep it going. Many people told me they'd never had as much fun at other weddings as they'd had at ours. We unfortunately missed our friend's famous break dancing but we're glad you switched over to hip hop music for our friends, as they seemed to be waiting for that music. You really turned what I thought might be a danceless event into one that everyone, from our 20-something friends to my eighty year old grandmother, was able to enjoy. So thank you, thank you, thank you for doing an awesome job for us at our wedding.

By the way, I also appreciated your introduction of yourself to ~~be~~ the bridal party and your taking the time to learn everyone's name's proper pronunciation.

Thank you so much,

Eileen Oh & Ray Kao
